The information herein was accumulated of fifty some odd years. The collection process started when TV first came out and continued until today. The books are in alphabetical order and cover shows from the 1940s to 2010. The author has added a brief explanation of each show and then listed all the characters, who played the roles and for the most part, the year or years the actor or actress played that role. Also included are most of the people who created the shows, the producers, directors, and the writers of the shows. These books are a great source of trivia information and for most of the older folk will bring back some very fond memories. I know a lot of times we think back and say, "Who was the guy that played such and such a role?" Enjoy!

Metaphor, though not now the scholarly “mania” it once was, remains a topic of great interest in many disciplines albeit with interesting shifts in emphasis.Warren Shibles' Metaphor: An Annotated Bibliography and History (Bloomington, Ind. 1971) recorded the initial interest. Then Metaphor: A Bibliography of Post-1970 Publications, published by John Benjamins, continued the record through the mania years up to 1985 when writings proliferated as metaphor was seen to be a fundamental category in human thought and language.Five years later, there is a need for a report on the newest thinking and tendencies in the field. This need is fulfilled by Metaphor II which offers a comprehensive view of information which would otherwise remain scattered throughout a numbing plethora of resources, including many sometimes-hard-to-find publications from Eastern Europe.Metaphor II systematically collects references of books, articles and papers published between 1985 and May 1990, and includes for completeness corrections and additions to the earlier bibliographies. Abstracts are given for many of the titles, while four indices (disciplines, semantic fields, metaphor theory and names) multiply the number of access points to the information.
