Hello I am having trouble with my 1997 seadoo xp 787. I just bought the ski. When I purchased it, I test drove and the ski bogged down when putting full throttle from idle. I fiddled with the throttle a little and the ski got up. Figured it was a carb problem. I bought the ski and did a complete carb rebuild with oem parts.

Can someone direct me to the official Sea-Doo repair / service / shop manual for a 96 Challenger 5896 with the 787 engine? I'm looking all over but I'm unable to find an appropriate service manual. I'm always being redirected to the incorrect one or a sketchy looking site requesting me to download some software to get the manual.
