Heavily illustrated, this survey of ammunition provides a clear notion of the operation of army weapons. Technical design and manufacturing details are absent. Annotation copyrighted by Book News, Inc., Portland, OR

Examines the practice of air interdiction in three wars: World War II, the Korean War, & the war in Southeast Asia. The author proposes a realistic objective for interdiction: preventing men, equipment, & supplies from reaching the combat area when the enemy needs them & in the amount he requires. Bibliography & index. Contains over 100 charts, tables, maps, & photos.

Published by Superintendent of Documents, US Government Printing Office, Washington, DC 20402-9328 for the Pacific Air Forces Office of History, Hickam Air Force Base, Hawaii. Annotation copyrighted by Book News, Inc., Portland, OR

Long before they took to the sea and air, warring factions engaged in land-based conflicts that involved close-range combat with rudimentary defenses and weapons. As civilizations have advanced, so too have their military strategies, tactics, and weaponry. Eventually this led to the development of sophisticated land fortifications, arms, artillery, and missile systems in use today by ground troops. This insightful volume examines the evolution of warfare on land around the world, as well as the impact of new technologies on the nature of war.

A comprehensive book on the changes and advances in both weaponry and military transportation that have occurred during the 20th century.

This field manual, "Ammunition Handbook: Tactics, Techniques, and Procedures for Munitions Handlers," provides ready reference and guidance for units and soldiers that handle munitions items. It provides useful data on important points of munitions service support. Also, it is a training tool for munitions units and soldiers. Focus is on tactics, techniques, and procedures used by soldiers handling munitions. The information and guidance contained herein will help them to safely receive, ship, store, handle, maintain, and issue munitions. The manual provides information on processing unit turn-ins, destroying unserviceable munitions, and transporting munitions in new, maturing, or mature theaters of operations in support of the force projection Army. The information in this manual conforms to the procedures of MOADS, MOADS-PLS, and modularity, and will take munitions units well into the twenty-first century.
