~~Becoming a Technical Leader - GeraldMWeinberg.com~~

Becoming a Tech Lead is a tough transition for any developer, because only part of the skills and experience you had as a developer prepares you for the expectations of a new role. Instead of simply designing and writing code, a Tech Lead is suddenly responsible for an entire development team - and this means dealing with people, both technical and non-technical.

~~5 Tips for Being an Effective Tech Lead + ThoughtWorks~~

If software development feels like it is only part of your professional purpose, perhaps you should consider becoming a tech lead. A tech lead could mean different things: a team lead (with no direct reports), or a manager. For example, an engineering manager is a person who is responsible for the team and its projects.
