CLAAS has introduced two new
ranges of rear mower that feature
a centre-of-gravity side mounted
system. The two new ranges, the
DISCO 10 and DISCO 100,
comprise seven brand-new models
that cover working widths from 3.4
down to 2.2m and also incorporate
the proven MAX CUT mowing bed,
which was previously only
available on wider working width
models.

1960 saw the dawn of an era of
unprecedented innovation and
development in farm machinery. It
was a period of rapid technical
advancement, that produced

Online Library Claas Matador Parts Catalog

machines which are the mainstay of the current very buoyant vintage tractor restoration movement. At the start of the decade, spark-ignition Standard Fordson tractors still occasionally required repair; by the end of the decade, the Fordson Diesel Major had been replaced by the Ford 1000 series. The history of these iconic brands is well-known; *Oily Hands and the Smell of Diesel* gives an alternative view - the inside story of the agricultural machinery repair trade. First employed as an apprentice, then moving his way up to an engineer, David Harris gives an entertaining, informative and personal account of his time spent at a Ford main tractor dealership, working on Ford, Fordson, County, Roadless

Online Library Claas Matador Parts Catalog

and Muirhill tractors, Chaseside loaders, Claas combines and New Holland and Jones balers amongst others. Including many historical photographs, David describes the technical challenges in detail, and tells of the ups and downs of life in the workshop and out in the field. This book will be a must-read for anyone who is or was involved in the machinery industry; anyone looking to restore or repair vintage agricultural machinery and anyone with a general interest in farming and machinery history.
