The Great Influenza *Flu The*

Story Of Great

The story of the 1918 flu epidemic is shocking and bald: more people died in one winter than had been killed in the entire First World War. Not far from my house in South-East England is a churchyard in which there are 300-year-old graves.

The influenza pandemic of 1918-20 killed up to 100 million people - more than died in the 2 world wars. The author considers the disease started in oct 1918 at a military base in Kansas and spread to Europe via troop movements and then to the whole world. In some communities the death rate was 100.
