The meltdown of stalwart companies from AIG to JAL to Lehman and government crises from Greece to Spain make it abundantly clear: With economic uncertainty and rapid innovation, empowered consumers and free agents, and the constant pressure to be faster, better and cheaper, the established wisdom on strategic planning works no more. Once hailed as "brilliant" by experts, it is the very approach that got so many companies into the mess in the first place. This path-breaking book shows how successful organizations of all stripes transformed their strategy paradigm based on Strategy-In-Action and the power of human capital: standing in the future, listening for vital intelligence in far-flung locations, giving voice to dissenting views, maximizing ownership by stakeholders, especially implementers, getting quick wins and screening out losers quickly in the action. Above all, successful companies of all sizes have ended the long-standing divorce of strategy—hatched by a select few behind closed doors—from action, the supreme test of strategy. Dr. Thomas D. Zweifel, strategy and performance expert, gamechanger and author of seven leadership books such as "Communicate or Die," "Culture Clash 2," "Leadership in 100 Days" and the award-winning "The Rabbi and the CEO," has teamed up with Edward J. Borey, CEO, corporate strategist and turnaround guru. Together, they bring to bear their combined half-century experience in innovating strategy design and execution at Fortune 500, midsize enterprises and startups as well as large public-sector and UN agencies. The result: a turn-key methodology for senior managers who need adaptive and people-centered strategy that yields quick wins and stands the test of time.
