Aligned with NCTM standards and focal points, this resource offers ready-to-use lessons that include brain-compatible math activities, step-by-step instructions for the teacher, and all the necessary reproducibles.

The twentieth century has seen the creation and evolution of technologies beyond imagination a century ago. The computer has enabled the digital presentation of knowledge, and increased the speed with which information can be captured and processed. The acceptance of these technologies has led to a new alternative for providing education and training--distance learning. This book focuses on the processes, techniques and tools that are being used to successfully plan, implement and operate distance learning projects.
