"Harvesting Color' presents the entire process of infusing your life with color—finding the right plants, harvesting them at the best time, transforming the crop into beautiful dye, and, finally, marring pigment to fiber. In this beautiful book, Rebecca Burgess showcases three dozen common plants that yield striking hues. Citing fascinating botanical lore, she demystifies the process of recognizing each plant in the wild. For those you can grow yourself, she details when to sow the seed and how to nurture the plant. For all the plants, you'll learn the optimal time to harvest, as well as how to extract the best dyes" --Cover flap.

All the information ever needed to extract dyestuffs from common trees, flowers, lichens, and weeds to create beautifully dyed materials. The heart of the book is 52 recipes for dyes made from natural, easily obtained dyestuffs.

A biography of Cesar Chavez, from age ten when he and his family lived happily on their Arizona ranch, to age thirty-eight when he led a peaceful protest against California migrant workers' miserable working conditions.

From the author of the #1 New York Times bestsellers Small Great Things and My Sister's Keeper, a novel exploring the story of a young woman overcome by the demands of having a family. Paige has only a few vivid memories of her mother, who abandoned her at five years old. Now, having left her father behind in Chicago for dreams of art school and marriage to an ambitious young doctor, she finds herself with a child of her own. But her mother's absence and shameful memories of her past force her to doubt whether she could ever be capable of bringing joy and meaning into the life of her child, gifts her own mother never gave. Harvesting the Heart is written with astonishing clarity and evocative detail, convincing in its depiction of emotional pain, love, and vulnerability, and recalls the writing of Alice Hoffman and Kristin Hannah. Out of Paige's struggle to find wholeness, Jodi Picoult crafts an absorbing novel peopled by richly drawn characters, and explores motherhood with a power and depth only she is capable of. "A brilliant, moving examination of motherhood, brimming with detail and emotion." —Richmond Times-Dispatch "Jodi Picoult explores the fragile ground of ambivalent motherhood in her lush second novel. This story belongs to ... the lucky reader." —The New York Times Book Review

A beautiful book of seasonal projects for using the brilliant spectrum of colors derived from plants to naturally dye your clothing and home textiles. Organized by season, Natural Color is a beautifully photographed guide to the full range of plant dyes available, drawn from commonly found fruits, flowers, trees, and herbs, with accompanying projects. Using sustainable methods and artisanal techniques, designer, artist, and professor Sasha Duerr details achievable ways to apply these limitless color possibilities to your home and wardrobe. Whether you are new to dyeing or more practiced, Duerr's clear and simple ingredients lists, step-by-step instructions, and detailed breakdowns on techniques such as shibori, dip-dye, and block printing will ensure beautiful results. With recipes to dye everything from dresses and sweaters to rugs and napkins, Natural Color will inspire fashion enthusiasts, home decorators, textile lovers, and everyone else who wants to bring more color into their life.

"Rainwater Harvesting for Drylands and Beyond, Volume 1" is the first book in a three-volume guide that teaches you how to conceptualize, design, and implement sustainable water-harvesting systems for your home, landscape, and community. The lessons in this volume will enable you to assess your on-site resources, give you a diverse array of strategies to maximize their potential, and empower you with guiding principles to create an integrated, multi-functional water-harvesting plan specific to your site and needs."--From publisher description.

"Beautifully written as part travel memoir and part dyeing handbook . . . you are handed a wealth of knowledge in one book." —Little Acorn Creations Similar to cooking and the act of sharing meals, our relationship to textiles is a core tenet of our human experience. Creating textiles cultivates connection, belonging, community, and friendships among people. In the world of textiles, natural dyeing is the closest we come to the act of cooking. Journeys in Natural Dyeing shares the story of Kristine Vejar and Adrienne Rodriguez's travels to four countries—Iceland, Mexico, Japan, and Indonesia—where they visited natural dyers who use locally-sourced dyes to create textiles that evoke beauty, a connection to their environment, and showcase their mastery of skill. This book shares their process of using their own locally-grown dyes and includes recipes and projects to create more than 400 shades of color. In addition, you will learn how to use your own natural environment to create deep, beautiful colors. No matter where you live, creating color naturally is possible.

Learn to design and maintain a bountiful flower garden at home with this comprehensive guide on everything from planting to flower arranging. In this book, brimming with inspirational photographs, interior stylist Clare Nolan reveals her secrets for growing a colorful, fragrant garden and using it to create spectacular floral displays for the home all year-round. Clare takes the mystery out of the growing process, offering clear advice on choosing the right plants for you, laying out your cutting patch, and planning ahead so you get your perfect palette of color, texture and shape, all at the right time. An entire chapter on arranging will inspire you to create spectacular arrangements for your home without the need for complicated floristry techniques. Being able to step out of the back door and pick a single stem for beside the bed, pull together a posy for a friend or create a colorful centerpiece is an exciting and rewarding addition to the home gardening experience. This volume covers: How to choose your plants, position your patch and grow luxurious flowers Cultivation tips for annuals, biennials, bulbs, corms, tubers, rhizomes, perennials, shrubs, trees, climbers, foliage and fillers When and how to harvest—and how to make your flowers last longer Styling guide for stunning arrangements that look like they came from a shop Expert advice from an experienced interiors stylist and lifestyle editor

In this vivid and captivating journey through the colors of an artist's palette, Victoria Finlay takes us on an enthralling adventure around the world and through the ages, illuminating how the colors we choose to value have determined the history of culture itself. How did the most precious color blue travel all the way from remote lapis mines in Afghanistan to Michelangelo's brush? What is the connection between brown paint and ancient Egyptian mummies? Why did Robin Hood wear Lincoln green? In Color, Finlay explores the physical materials that color our world, such as precious minerals and insect blood, as well as the social and political meanings that color has carried through time. Roman emperors used to wear togas dyed with a purple color that was made from an odorous Lebanese shellfish—which probably meant their scent preceded them. In the eighteenth century, black dye was called logwood and grew along the Spanish Main. Some of the first indigo plantations were started in America, amazingly enough, by a seventeen-year-old girl named Eliza. And the popular van Gogh painting White Roses at Washington's National Gallery had to be renamed after a researcher discovered that the flowers were originally done in a pink paint that had faded nearly a century ago. Color is full of extraordinary people, events, and anecdotes—painted all the more dazzling by Finlay's engaging style. Embark upon a thrilling adventure with this intrepid journalist as she travels on a donkey along ancient silk trade routes; with the Phoenicians sailing the Mediterranean in search of a special purple shell that garners wealth, sustenance, and prestige; with modern Chilean farmers breeding and bleeding insects for their viscous red blood. The colors that craft our world have never looked so bright.
