### Introduction to IBM SPSS Statistics - Discovering Statistics

IBM® SPSS® Statistics provides the ability to create custom components in R that read the case data from the active dataset, apply algorithms written in R to the data, and write the results back to IBM SPSS Statistics as a new dataset or as pivot table or R graphic output directed to the Viewer, or exported via the Output Management System (OMS). You can analyze your data with an R function that you write or you can use a function from the extensive set of statistical routines available ...

### Introduction - IBM

Introduction to IBM SPSS Statistics. SPSS is a powerful statistical analysis and management system that runs under Windows and the Apple Macintosh. This course is aimed at students who are new to IBM SPSS Statistics. Students will learn how to prepare data for analysis using a sample questionnaire, create a data file, input data and run analyses. The course is not intended to teach participants how to analyse quantitative data, it is about how to use SPSS as a tool to assist with analysis.
