Amazon.co.uk: Iris folding: Books

An introduction to iris folding. A simple paper folding technique is combined with aperture cards to give stunning results. Square, round or die cut apertures are decorated with folded strips of different coloured papers arranged in a spiral. From left to right: folded strips of coloured paper; Iris folding pattern; finished card.

Card Inspirations an introduction to iris folding

Place the iris folding pattern into the middle of the white card. Using a pencil, carefully draw around the edge of the pattern. Try not to move the pattern around when you are drawing, as you want to draw a smooth, accurate outline of the iris folding pattern. 2) Cut out your aperture. Place a cutting mat on your table to protect your work surface.

Easy Iris Folding Instructions & Free Patterns [With Video]

Iris folding is a card making technique that involves layering paper strips across a cutout shape following a printed template. Traditionally the paper strips form a 'swirl' shape similar to the iris of a camera, which is where the technique gets its name.
