"A Roman Map Workbook meets the needs of today's students and introduces them to the geography of Rome and the Roman world. Veteran high school and college Latin teacher Elizabeth Heimbach provides students, especially those studying Latin, with a thorough grounding in the geography of the Roman world. The workbook walks students through each map, discussing the importance of each place-name, making connections to Roman history and literature. The carefully chosen maps complement subjects and periods covered in the Latin and ancient history classroom"\_ Contracub.

ECCE ROMANI - a Latin reading course - was first published in 1971. Its aims are to bring pupils quickly to the point where they can read Latin with confidence, and also to give them some insight into life in the early Roman Empire. The reading passages are written in a lively style and grammatical information is dealt with efficiently and sensibly. This second edition is the result of a complete revision and now provides better preparation for examinations at 16+. It consists of five course books (each with an accompanying book of teacher's notes), two companion reference books and a Roman Studies Handbook containing bibliographical references.

Teaches children the basics of Latin grammar and vocabulary, as well as Roman British history and culture, through vocabulary lists, mythical tales, and illustrations.
