On December 3, 2018, I was sworn into office on a promise to Reform, Rebuild, and Restore the Los Angeles County Sheriff's Department. After twenty-two months, one pandemic, civil unrest, an openly hostile board of supervisors, and dishonest LA Times coverage, I can report that we have done exactly that: reform a massive operation where previous sheriffs failed.

This account of the struggle to bring law and order to a city rich with gold rush money, at odds with Mexican bandits, and teeming with forty-niners and confederate sympathizers chronicles the chaotic early days of Los Angeles, which boasted the highest homicide rate in America by 1850. From profiles of the frontier-style lawmen hired to stop the initial mayhem to an analysis of the city's modern sheriff's office—the largest in America—this book draws comparisons between the uproar of the early days, the racial tensions that erupted during the Watts riots, and the safety issues that preoccupy the police force today.

Stories & Memories from the Life of Leo V. Chaney

During his 25 years with the Los Angeles County Sheriff's Department, Dean Scoville advanced from nervous recruit to silver-tongued spokesperson to seasoned patrol sergeant. His candid memoir chronicles the personal experiences of police work—the tedium of guarding jail inmates, the consternation of shoot/don't-shoot scenarios, the trauma of being wounded in the line of duty—and offers an insider's view of iconic moments in law enforcement, including the capture of "Night Stalker" Richard Ramirez and the 1992 L.A. Riots. Along the way he examines a profession increasingly beleaguered by inimical agendas, administrative cowardice and fiscal restraints.

This groundbreaking history of how American police forces have been militarized is now revised and updated. Newly added material brings the story through 2020, including analysis of the Ferguson protests, the Obama and Trump administrations, and the George Floyd protests. The last days of colonialism taught America's revolutionaries that soldiers in the streets bring conflict and tyranny. As a result, our country has generally worked to keep the military out of law enforcement. But over the last two centuries, America's cops have increasingly come to resemble ground troops. The consequences have been

dire: the home is no longer a place of sanctuary, the Fourth Amendment has been gutted, and police today have been conditioned to see the citizens they serve as enemies. In *Rise of the Warrior Cop*, Balko shows how politicians' ill-considered policies and relentless declarations of war against vague enemies like crime, drugs, and terror have blurred the distinction between cop and soldier. His fascinating, frightening narrative that spans from America's earliest days through today shows how a creeping battlefield mentality has isolated and alienated American police officers and put them on a collision course with the values of a free society.

Horace Bell (1830-1918) left Indiana to seek gold in California. In 1852, he moved to Los Angeles and later became involved in American filibustering in Latin America and saw service in the Union Army before returning to Los Angeles after the Civil War to become a lawyer and newspaper publisher. *Reminiscences of a ranger* (1881) includes anecdotes of Bell's experiences as a Los Angeles Ranger pursuing Joaquin Murietta in 1853, a soldier of fortune in Latin America, a Union officer in the Civil War, and a Los Angeles newspaper editor. He provides lively anecdotes of Los Angeles and its residents under Mexican and American rule, emphasizing cowboys and criminals and native Americans. Throughout, Bell gives special attention to the fate of Hispanic Californians and Native Americans under the United States regime. For another collection of Bell's reminiscences, see *On the old west coast* (1930).

Former police chief Jerry Boyd presents a sequel to his first book, *Firestone Park*, which began the chronicle of his law enforcement career. This second volume contains stories from the second seven years of that career. Some of that time was spent with the Los Angeles County Sheriff's Department, but the majority of those years were played out with the Irvine California Police Department where Jerry served first as a Lieutenant, and later as a Captain.

Cassia Spohn and Katharine Tellis assess the criminal justice system's response to sexual assault, exploring the complex dynamics that shape the actions of police and prosecutors. The authors draw on unparalleled access to Los Angeles detectives, prosecutors, and case files to make sense of the factors that affect the outcomes of sexual assault claims. Following cases from victim report, to police investigation, to the decision to charge or not to charge, they provide new insights into why shockingly few sexual assault claims lead to an eventual criminal conviction.

Restructure the LAPD Training Group to allow the centralization of planning; instructor qualification, evaluation, and retention; and more efficient use of resources.

Radical glossary of the vocabulary of policing that redefines the very way we understand law enforcement It doesn't take firsthand experience to learn the meaning of pain compliance or rough ride. *Police: A Field Guide* is an illustrated handbook to the methods, mythologies, and history that animate today's police. It is a survival manual for encounters with cops and police logic, whether it arrives in the shape of officer friendly, Tasers, curfews, non-compliance, or reformist discourses about so-called bad apples. In a series of short chapters, each focusing on a single term, such as the beat, order, badge, throw-down weapon, and much more, authors David Correia and Tyler Wall present a guide that reinvents and demystifies the language of policing in order to better prepare activists—and anyone with an open mind—on one of the key issues of our time: police brutality. In doing so, they begin to chart a future free of this violence—and of police.
