Exhaustive in its scope, this book provides a comprehensive study of the natural and modified history of congenital heart disease. Focusing particularly on the discussion of fetal and post-natal outcomes, the contributors seek to place developments in historical perspective. Virtually all surgical and catheter-based strategies to enhance outcomes of all forms of congenitally malformed heart are analysed, covering the morphology and genetic basis of each particular abnormality, and issues that were germane to evolving different therapeutic strategies. Using data from the records of the Toronto Hospital for Sick Children, contributors highlight the complications of the various forms of therapies and identifies particular risk factors for mortality and morbidity.

Kids will have hours of fun as they play, practise and learn with these super-sized jumbo sticker books. They can also collect the reward stickers when they're done! Each title includes 5 sticker spreads. Four books in one. With 5 sticker spreads, including 1 page of reward stickers. Content is specially designed to be entertaining and educational. Full-colour pages throughout, printed on quality white paper.

DIGITAL LOGIC offers the right balance of classical and up-to-date treatment of combinational and sequential logic design for a first digital logic design class. The author provides a thorough explanation of the design process, including completely worked examples beginning with simple examples and going on to problems of increasing complexity. This text contains PLD (Programmable Logic Design) coverage. Chapter 9 develops complete, worked EPROM, PLA, and EPLD design examples. The problems are developed in Chapter 7 as standard designs using SSI and MSI devices so that your students can see the difference between the two approaches.

Punk Science describes nothing less than a new model of the universe, where consciousness generates life. It is a universe of co-existence and balance between regions of matter and antimatter, rather than one of violent destruction and annihilation.
