While many applaud the apparent successes of community and saturation policing, Neil Websdale contends instead that such law enforcement initiatives oppress rather than protect the poor, particularly African Americans in large urban centers. Based on a groundbreaking ethnographic study of public housing projects in Nashville, Tennessee, he argues persuasively that community policing is a ...

A hard-hitting examination of community policing and its negative impact on the urban poor.

Highly popular with both the public and political leaders, community policing is the most important development in law enforcement in the last twenty-five years. But does community policing really work? Can police departments fundamentally change their organization? Can neighborhood problems be solved? In the early 1990s, Chicago, the nation's third largest city, instituted the nation's largest community policing initiative. Wesley G. Skogan here provides the first comprehensive evaluation of that citywide program, examining its impact on crime, neighborhood residents, and the police. Based on the results of a thirteen-year study, including interviews, citywide surveys, and sophisticated statistical analyses, *Police and Community in Chicago* reveals a city divided among African-Americans, Whites, and Latinos. By looking at the varying effects community policing had on each of these groups, Skogan provides a valuable analysis of what works and why. As the use of community policing increases and issues related to race and immigration become more pressing, *Police and Community in Chicago* will serve the needs of an increasing amount of students, scholars, and professionals interested in the most effective and harmonious means of keeping communities safe.

The best-selling bible of the movement to defund the police in an updated edition The massive uprising that followed the police killing of George Floyd in the summer of 2020— by some estimates the largest protests in US history—thrust the argument to defund the police to the forefront of international politics. That case had been put persuasively a few years earlier in *The End of Policing* by Alex Vitale, now a leading figure in the urgent public discussion over policing and racial justice. The central problem, Vitale demonstrates, is the dramatic expansion of the police role over the last forty years. Drawing on firsthand research from across the globe, he shows how the implementation of alternatives to policing—such as drug legalization, regulation, and harm reduction instead of the policing of drugs—has led to reductions in crime, spending, and injustice. This updated edition includes a new introduction that takes stock of the renewed movement to challenge police impunity and shows how we move forward, evaluating protest, policy, and the political situation.

Opening with a powerful letter to former Tacoma police chief David Brame, who shot his estranged wife before turning the gun on himself, Norm Stamper introduces us to the violent, secret world of domestic abuse that cops must not only navigate, but which some also perpetrate. Former chief of the Seattle police force, Stamper goes on to expose a troubling culture of racism, sexism, and homophobia that is still pervasive within the twenty-first-century force; then he explores how such prejudices can be addressed. He reveals the dangers and temptations that cops face, describing in gripping detail the split-second life-and-death decisions. Stamper draws on lessons learned to make powerful arguments for drug decriminalization, abolition of the death penalty, and radically revised approaches to prostitution and gun control. He offers penetrating insights into the "blue wall of silence," police undercover work, and what it means to kill a man. And, Stamper gives his personal account of the World Trade organization debacle of 1999, when protests he was in charge of controlling turned violent in the streets of Seattle. *Breaking Rank* reveals Norm Stamper as a brave man, a pioneering public servant whose extraordinary life has been dedicated to the service of his community.

If police are the problem, what ' s the solution? Tens of millions of people poured onto the streets for Black Lives Matter, bringing with them a wholly new idea of public safety, common security, and the delivery of justice, communicating that vision in the fiery vernacular of riot, rebellion, and protest. *A World Without Police* transcribes these new ideas—written in slogans and chants, over occupied bridges and hastily assembled barricades—into a compelling, must-read manifesto for police abolition. Compellingly argued and lyrically charged, *A World*

Without Police offers concrete strategies for confronting and breaking police power, as a first step toward building community alternatives that make the police obsolete. Surveying the post-protest landscape in Minneapolis, Philadelphia, Chicago, and Oakland, as well as the people who have experimented with policing alternatives at a mass scale in Latin America, Maher details the institutions we can count on to deliver security without the disorganizing interventions of cops: neighborhood response networks, community-based restorative justice practices, democratically organized self-defense projects, and well-resourced social services. A World Without Police argues that abolition is not a distant dream or an unreachable horizon but an attainable reality. In communities around the world, we are beginning to glimpse a real, lasting justice in which we keep us safe.
