Real-Time Rendering, 3rd Edition. This is the bibliography of the Third Edition of the book Real-Time Rendering. Since many of the references have web resources associated with them, we have made this hyperlinked version of the bibliography available. The First Edition and Second Edition bibliographies are also available.

Real-Time Rendering Bibliography - 3rd Edition

Real-time computer graphics or real-time rendering is the sub-field of computer graphics focused on producing and analyzing images in real time. The term can refer to anything from rendering an application's graphical user interface to real-time image analysis, but is most often used in reference to interactive 3D computer graphics, typically using a graphics processing unit (GPU).
