Wildlife in gardens / RHS Gardening

The Royal Horticultural Society is the UK's leading gardening charity. We aim to enrich everyone's life through plants, and make the UK a greener and more beautiful place.

Wildlife gardening in a changing climate / RHS Gardening

Bring your garden to life by bringing life to your garden. Encourage wildlife to enjoy your garden as a safe haven and see an eco-system thrive before your very eyes. Explore our vast range of options from bird houses, baths and feeders to observation equipment.

Wildlife - RHS Plants

A native hedge is a good place to start when creating a wildlife-friendly garden. Hawthorn supports many species of birds that use the hedges as nesting sites and feast upon the haws (fruits) in autumn. They offer cover to small mammals as wildlife corridors. Grow them: they thrive in wide range of soil conditions in full sun or partial shade.

Garden design: wildlife-friendly garden plants / RHS Gardening

A pond is an attractive feature in any garden and, with a little thought about its design and construction, can also be a haven for wildlife. Winter is a good time to make one as it will have time to settle in before the breeding season for many wildlife species begins in spring.

Make a wildlife pond this winter / RHS Gardening

Find out how to encourage wildlife into your garden by using native plants. Explore our range of natural, meadow and wildlife books at the RHS shop. Natural, Meadow & Wildlife - Garden Design Books from the RHS Shop

Wildlife is a more significant and mainstream issue for gardeners than when this best-selling book was published in 1985 as *How to Make a Wildlife Garden*. Fully revised, updated and freshly illustrated, this new edition brings RHS research and best practice to a multitude of controversial areas: from the use of pesticides to bird boxes, bird tables and planting for birds; whether tidiness in the garden is a good thing for wildlife; the planting of native species over introduced ones; the idea of habitat creation to preserve diversity; how to attract and sustain butterflies; pollinating insects and the crash in bee populations and how gardeners are involved. Wildlife forms an increasingly important part of a gardener's responsibility and that responsibility become integral to their decision-making processes. Future gardeners can use this volume to be better informed guardians of the planet's resources. Chris Baines is the UK's foremost wildlife gardening expert and Vice President of the Wildlife Trusts.

If you want to attract more bees, birds, frogs and hedgehogs into your garden, look no further than *Wildlife Gardening for Everyone and Everything*. Kate Bradbury offers tips on feeding your neighbourhood wildlife and explains how you can create the perfect habitats for species you'd like to welcome into your garden. With handy charts tailored to the needs of every size and style of garden, this easy-to-use book also includes practical projects such as making bee hotels or creating wildlife ponds, compost corners and wildflower meadows, as well as fact files for the UK's most common garden species. Everyone can garden with wildlife in mind, and in this practical new guide, Kate has teamed up with the Wildlife Trusts and the RHS to help you discover how you can make your garden, balcony, doorstep or patio a haven for garden wildlife.

The best way to attract wildlife to your garden is to build a pond. Discover how to do it, and then watch the wildlife come, month by month. If you want to do your bit to support local biodiversity, pick up a spade and start digging. By putting a pond in your back garden, you have the potential to attract and support a huge array of species. *How to Create a Pond for Wildlife* makes the process easy, with fully photographed step-by-steps showing you how to plan, dig, line, and fill a simple wildlife pond, alongside alternatives including container ponds and more formal designs. Discover the best mix of aquatic plants you'll need to keep your pond

Access Free Rhs Wildlife Garden

thriving, how to make sure that creatures can enter and exit the water safely, and the little extra touches that can encourage all kinds of wildlife to visit. Once your pond is ready, sit back and watch nature do its work. Follow the story of your pond from season to season as the ebook takes you through the variety of creatures that will visit your new water feature: the blackbird that bathes in the shallows; the snuffling hedgehog that has come to quench its thirst; the bat that soars above the water at nightfall to feast on rising insects. Every garden should have a pond, and with this ebook, you'll have everything you need to create a pond that will teem with life for years to come.

In this revised and updated version of the classic *How to Make a Wildlife Garden*, professional environmentalist Chris Baines shows how you can transform your garden into a rich wildlife haven.

With more than 80 experiments for the whole family to discover and enjoy, *The Pocket Book of Garden Experiments* contains easy-to-follow instructions for activities that will stretch your imagination and bring out your inner scientist. x Make an ecosystem in a jar x Find out why leaves change colour x Turn potatoes into slime x Calculate the heights of trees x Make a sound map of your garden Each experiment takes inspiration from the natural world and the fascinating things that live in it.

Gardening, like mindfulness, is a way of finding a sense of calm in an otherwise chaotic world, a simpler existence, even if it is only for a few minutes. Both forge a connection to the world around us, to nature and wildlife, which can bring pleasure and peace. In this beautifully illustrated guide to gardening for mindfulness, horticulturalist and mindfulness practitioner Holly Farrell provides a blueprint for a more contemplative way to garden, including projects, meditations and inspiration. Projects for the mindful gardener, including growing something from seed, planting a tree and creating a mandala, put the theory of mindfulness into practice, while plant lists and design ideas aim to enhance mindfulness in the garden through the senses. Beautifully packaged and easy to follow, this is the perfect book for keen gardeners, devotees of mindfulness, or simply those looking for calm in a busy and hectic world.

From the green-thumbed optimist who views their garden as a calming getaway to those that see backyard life as more of a struggle against weeds and pests, almost all gardeners will meet a creature or two who will drive them to despair. Plenty of gardeners are ready to swear off nasty chemical deterrents and bloodthirsty solutions. But how can you save your squash and uphold your hostas at the same time? *50 Ways to Outsmart a Squirrel* serves up a smorgasbord of eco-friendly ideas and solutions. They're legal, humane and - best of all - effective. Cut through the old wives tales, save your salt for seasoning, and discover gold-standard, sustainable planting solutions and crop-saving tips from gardeners who know exactly how you feel.

Foreword written by Isabella Tree of the Knepp Wildland Project. *RHS How Can I Help Hedgehogs?* offers more than 100 ideas for you to help wildlife thrive in your garden. Packed with simple, low-cost ideas that will make a huge difference to the natural world, the book suggests ways to help birds, bees, butterflies, beetles and

Access Free Rhs Wildlife Garden

many other declining species. Hopeful, informative and entertaining, with plenty of 'I-never-knew-that' mini-features, this is a book you and your family need, and one that you'll all enjoy, too. Includes topics such as how to increase the biodiversity of your plot and how to improve your soil without using chemicals. Includes... - Can I make my garden bat-friendly? - Do green roofs work? - Why should I love my weeds? - Should I keep honey bees? - Which flowers are friendliest for moths? - Where's best for a bird box? - Is garden lighting disruptive? ...and many more.

In this colorful guide featuring 30 easy gardening projects, kids will learn to grow their own fruits and vegetables, attract wildlife such as butterflies and bees, and recycle household items into animal habitats and fun decorations. Whether they've got a big backyard or just a windowsill, kids can grow all sorts of plants with this beginner's gardening book. Packed with step-by-step activities, this book teaches children ages 5-8 how to grow garden staples like tomatoes, pumpkins, and zucchini with photographic examples. Each project includes a complete materials list, planting guide, and tips on harvesting your fruits and vegetables, providing plenty of support for kids from start to finish. The book also offers advice on creating creature-friendly spaces within your garden, such as a bee hotel, a ladybug sanctuary, and a home for frogs and toads. By caring for the wildlife around them, kids can grow to better understand the relationship between humans and nature, and how we can support local habitats wherever we happen to live. Beyond the gardening basics, Let's Get Gardening also helps kids learn about conservation, recycling, and sustainability through simple, hands-on projects. From making mini greenhouses out of leftover glass jars, to growing strawberries in an old pair of rain boots, to repurposing an empty milk carton as a hanging bird feeder, there are so many practical ways for kids to help cut waste and reduce pollution. So grab your potting soil and let's get gardening!
