Romance definition and meaning | Collins English Dictionary
The principal kind of romance found in medieval Europe from the 12th century onwards, describing (usually in verse) the adventures of legendary knights, and celebrating an idealized code of civilized behaviour that combines loyalty, honour, and courtly love. Wizardry and Wild Romance is a
fantastic guide for anyone who loves

think this book serves as an excellent
adjunct to Lin Carter's Imaginary
Worlds(qv), as Moorcock spends
considerable time on works published
after Imaginary Worlds was written.
