Community Health Programs Yukon Immunization Program Section 5 – Immunization of Special Populations 2019 October Page 6 1.0  
IMMUNOCOMPROMISED INDIVIDUALS Immunocompromised individuals are unable to mount an adequate immune response.

Yukon Immunization Program Manual

Section 5.1, Population Ecology. What types of factors can affect the size of this population of otters? Characteristics of a Population.  
Geographic distribution- range, area inhabited by a population. Density- number of organisms in a given area.

Section 5.1, Population Ecology

•Population distribution- the way individuals are spaced out across their range 1. Random- occurs when an individual in a population is independent of other individuals 2. Clumped- can help animals stay safe from predators 3. Uniform- can help each individual find food or take shelter

Section 5.1 How Populations Grow

Section 5-1: How Populations Grow. Three important characteristics of a population are its geographic distribution, density, and growth rate. Three factors affect population size: the number of births, the number of deaths, and the number of individuals that enter or leave the population.

Chapter 5 Resources - miller and levine.com

Population. Section 1. Population. This section presents statistics on the growth, distribution, and characteristics of the U.S. population. The principal source of these data is the U.S. Census Bureau, which conducts a decennial census of population, a monthly population survey, a program of population estimates and projections, and a number of other periodic surveys relating to population characteristics.
