Richard Dawkins transformed our view of God in his blockbuster, *The God Delusion*, which sold more than 2 million copies in English alone. He revolutionized the way we see natural selection in the seminal bestseller *The Selfish Gene*. Now, he launches a fierce counterattack against proponents of "Intelligent Design" in his New York Times bestseller, *The Greatest Show on Earth*. "Intelligent Design" is being taught in our schools; educators are being asked to "teach the controversy" behind evolutionary theory. There is no controversy. Dawkins sifts through rich layers of scientific evidence—from living examples of natural selection to clues in the fossil record; from natural clocks that mark the vast epochs wherein evolution ran its course to the intricacies of developing embryos; from plate tectonics to molecular genetics—to make the airtight case that "we find ourselves perched on one tiny twig in the midst of a blossoming and flourishing tree of life and it is no accident, but the direct consequence of evolution by non-random selection." His unjaded passion for the natural world turns what might have been a negative argument, exposing the absurdities of the creationist position, into a positive offering to the reader: nothing less than a master's vision of life, in all its splendor.

"Step right up!" and buy a ticket to the Greatest Show on Earth—the Big Top, containing death-defying stunts, dancing bears, roaring tigers, and trumpeting elephants. The circus has always been home to the dazzling and the exotic, the improbable and the impossible—a place of myth and romance, of reinvention, rebirth, second acts, and new identities. Asking why we long to soar on flying trapezes, ride bareback on spangled horses, and parade through the streets in costumes of glitter and gold, this captivating book illuminates the history of the circus and the claim it has on the imaginations of artists, writers, and people around the world. Traveling back to the circus's early days, Linda Simon takes us to eighteenth-century hippodromes in Great Britain and intimate one-ring circuses in nineteenth-century Paris, where Toulouse-Lautrec and Picasso became enchanted with aerialists and clowns. She introduces us to P. T. Barnum, James Bailey, and the enterprising Ringling Brothers and reveals how they created the golden age of American circuses. Moving forward to the whimsical Circus Oz in Australia and to New York City's Big Apple Circus and the grand spectacle of Cirque du Soleil, she shows how the circus has transformed in recent years. At the center of the story are the people—trick riders and tightrope walkers, sword swallows and animal trainers, contortionists and clowns—that created the sensational, raucous,

and sometimes titillating world of the circus. Beautifully illustrated and filled with rich historical detail and colorful anecdotes, The Greatest Shows on Earth is a vibrant history for all those who have ever dreamed of running away to the circus.

*Includes pictures. *Highlights Barnum's entertainment career and transition into the circus. *Includes a bibliography for further reading. "We bring you the circus - that Pied Piper whose magic tunes lead children of all ages into a tinselled and spun-candied world of reckless beauty and mounting laughter; whirling thrills; of rhythm, excitement and grace; of daring, enflaming and dance; of high-stepping horses and high-flying stars. But behind all this, the circus is a massive machine whose very life depends on discipline, motion and speed - a mechanized army on wheels that rolls over any obstacle in its path - that meets calamity again and again, but always comes up smiling - a place where disaster and tragedy stalk the Big Top, haunts the back yard, and rides the circus train - where Death is constantly watching for one frayed rope, one weak link, or one trace of fear. A fierce, primitive fighting force that smashes relentlessly forward against impossible odds: That is the circus - and this is the story of the biggest of the Big Tops - and of the men and women who fight to make it." - Opening remarks from the film The Greatest Show On Earth!, a drama set in the Ringling Brothers and Barnum & Bailey Circus. Americans have loved traveling circuses for generations, and none represent the country's love for entertainment quite like the most famous of them all, the Ringling Bros. and Barnum & Bailey Circus. The five brothers who started a circus in Wisconsin, as well as P.T. Barnum, have had their names become synonymous with the circus, so it's only fitting that the manner in which these men entered the business and the merging of their traveling circuses together also make for great stories. Circus promoters have long been viewed as somewhat shady hucksters, but none could top P.T. Barnum, who used a blend of traditional circus entertainment, freak show exhibits, and outright hoaxes to create "The Greatest Show on Earth". Barnum introduced America to Jumbo the Elephant, one of the most legendary acts in the history of the circus, as well as "exhibits" like Joice Heth, an elderly African American woman Barnum advertised as a 161 year old who nursed George Washington. He also notoriously perpetrated hoaxes with General Tom Thumb and claimed to have a live mermaid, so it's no surprise that Barnum is often apocryphally quoted as saying, "There's a sucker born every minute." While he didn't actually say that, he said something similar: "Nobody ever lost a dollar by underestimating the taste of the American public." Around the same time that Barnum was operating the Barnum & Bailey's circus, the Ringling Brothers were engaging in more traditional circus activities in Wisconsin. As their traveling circus became better known in the late 1880s, it was advertised as the "Ringling Brothers United Monster Shows, Great Double Circus, Royal European Menagerie, Museum, Caravan, and Congress of Trained Animals". The Ringling Brothers were eventually successful enough that they were able to buy Barnum's circus after Barnum had already died, and they merged the traveling circuses together in 1919. The Greatest Show on Earth: The History of the Ringling Bros. and Barnum & Bailey Circus examines the origins of the famous circuses, the background of the important individuals involved, and their merger into the most famous circus of all. Along with pictures of important people, places, and events, you will learn about "The Greatest Show on Earth" like never before, in no time at all.

The essential book to understanding Donald Trump as a businessman and leader—and how the biggest deal of his life went down. Now, Barrett's classic book is back in print for the first time in years and with an introduction about Trump's 2016 presidential campaign. Donald Trump claims that his success as a “self-made” businessman and real estate developer proves that he will make an effective president, but this devastating investigative account by legendary reporter Wayne Barrett proves otherwise. Back in print for the first time in years, Barrett's seminal book reveals how Trump put together the biggest deal of his life—Trump Tower—through manipulation and deceit; how he worked with questionable characters from the mafia and city politics; and how it all nearly came crashing down. Here is a vivid and inglorious portrait of the man who wants now to be the most powerful man in the world. In *Trump: The Greatest Show in the World—The Deals, the Downfall, the Reinvention*, Barrett unravels the myth and reveals the truth behind the mogul's wheelings and dealings. After decades covering him, few reporters know Trump as Barrett does. Instead of the canny businessman that Trump claims in his own books, Barrett explores how Trump exploited his father's banking and political connections to finance and grease his first major deals. Barrett's investigative biography takes us from the days of Donald's lonely youth to his brash entry into the real estate market, and to the back room deals behind his New York, Atlantic City and Florida projects. Most compellingly Barrett paints an intimate portrait of Trump himself, a man driven by bravado, obsessive self-regard, and an anxious ruthlessness to subdue his rivals and seduce anyone with the power to aid his empire. We see him head to head with an opponent as powerful as Pete Rozelle, ingratiating himself with the brooding governor on the Hudson, and fueling the Drexel engine driven by Michael Milken with hundreds of millions in fees—paid, ironically, by gaming companies to fend off Trump takeovers. We explore his complicated emotional and business relationship with his first wife, Ivana, and the use he planned to make of his mistress—and later, his second wife—Marla Maples as a “southern strategy” in his then contemplated presidential campaign. With interviews with scores of adversaries and former colleagues, we are given a privileged look at Trump the businessman in action—reckless as often as he is brilliant, reliant on threats as much as on charm, and ultimately a cautionary tale: is this the man we want to lead the world? PRAISE FOR TRUMP: “Trump is a withering portrait of the most self-mythologized and promoted businessman of our era, an exhaustively researched and long-overdue antidote to Trump's own books. It is a penetrating portrait of the age that spawned him and the many who aided and abetted his rise. Trump seems destined to be the definitive account of how Trump got ahead and why he fell. It is a sad story, with important lessons for us all.” —James B. Stewart, Pulitzer Prize-winning author of *Den of Thieves* “Donald Trump surprises us again. Wayne Barrett's Trump is a fresh, detailed, and vivid account of the tangled connections of money, politics, and power in our times.” —Nicholas Pileggi, author of *Wiseguy*

In this black comedy, the spotlight shines upon those who love it most: the self-obsessed, self-help culture and the media that generates hysteria for the sake of entertainment, bringing the cults of victimhood and celebrity together. Nothing is sacred in the network competitions for the next big hit, and in their treatment of newsworthy events, the line between truth and fiction doesn't matter as much as the almighty dollar. Satire, it has been said, is not possible in America because everything eventually comes true. Tragedy, you might say, is both cheapened and still to come when the media gets involved. The Greatest Show on Earth is a timely commentary about the media frenzy surrounding allegations of sex abuse and the popular mania for Reality TV. -Kirkus Discoveries Quote America's cult of psychotherapy combines with its cult of celebrity to create a monster in this amusing satire. Debut novelist Buck isn't afraid to use a sledgehammer to drive home his satirical points. Does psychotherapy infantilize women? You bet-just look at Meme playing with stuffed animals and wearing a diaper! Still, Buck has a vigorous comic imagination and a biting wit, especially when he treats his characters as people instead of cartoon figures. An over-the-top but funny attack on some meaty targets.
