• Overpopulation: One of the most ironical aspects of science. Science tells you the reason why the Earth is being overpopulated and the measures that should be taken to deal with it. On the other hand, science has enabled us to live longer than average expectancy, decreasing the mortality rate immensely.

### Positive and negative effects of Science - Essay and speech

Science and technology have had a major impact on society, and their impact is growing. By drastically changing our means of communication, the way we work, our housing, clothes, and food, our methods of transportation, and, indeed, even the length and quality of life itself, science has generated changes in the moral

Although the ?-phase of formamidinium lead iodide (FAPbI3) has a suitable bandgap for use in solar cells, it must be stabilized with additional cations. These compositions can adversely affect the bandgap and produce lattice strain that creates trap sites for charge carriers. Kim et al. found that substituting small, equimolar amounts of cesium and methylenediammonium cations for ...
