Based on over 45 years of research, BioGeometry Signatures are linear diagrams that help balance the subtle energy of body organs. The organ subtle energy patterns are accessed through BioGeometry Signatures placed externally in the body's energy fields to create a connection through Resonance of Shape. "This is a book that will change the way you think about your body and your health. It shows that we are not separate from the shapes, angles and proportions that surround us all the time, and that these shapes create energetic patterns that can introduce equilibrium and harmony into our own biological makeup. This is a modern science of energy balancing that provides the key to the hidden ancient knowledge of great civilizations. With BioGeometry, Dr. Ibrahim Karim has demonstrated how powerful simple shapes can be in altering the functioning of our physical, mental, and spiritual worlds. This has been frequently demonstrated in architectural and design projects, environmental balancing solutions including the mitigation of the effects of electro-pollution and geopathic stress, in health and wellness projects, and in the efforts of individuals in their personal spiritual development. In this book on BioGeometry Signatures, once again you see how powerful certain carefully created shapes can be in altering the physical functioning of organ systems, in supporting healing, and in changing physical and mental states. Work with them, let them touch you, and feel how they can assist you in your own search for harmony." Michael J. Maley, Ph.D. Instructor in BioGeometry

This first-ever published collection of writings by Dr. Ibrahim Karim reflects the holistic essence of his worldview. Dr Karim is the founder of the Science of BioGeometry in the early 1970s. BioGeometry is the science that uses shapes, colors, motion and sound to induce harmony into the subtle energy qualities of the environment. At the core of this harmony is a subtle energy quality found in the transcendental centers of the forming process of nature and is the main quality in sacred power spots of humanity that give a spiritual dimension to the timeless monuments erected since the dawn of humanity. With his experience as an architect and a scientist Dr. Karim has synergized aspects of Pythagorean Harmonics, Subtle energy sciences, Radiesthesia, Geobiology, Building Biology, Sacred Architecture & modern wave theories to produce a new Physics of Quality from which the science of BioGeometry emerged. "BioGeometry bridges science and spirituality to produce a natural harmony into the environment. "BioGeometry provides a viable solution in transforming the quality of the effect that electromagnetic radiation has on living systems. Successful projects in Switzerland in collaboration & acknowledgment of Swiss authorities prove its efficiency to take our modern science into the future. "BioGeometry provides new solutions to Earth Radiation, which is a serious health hazard if not acknowledged in the location and design of our buildings. " A new energy-quality-based analysis of the Great Pyramid in Giza, reveals new knowledge on the foremost of the wonders of the world and on the essence of the great Ancient Egyptian civilization.

The era of the nuclear family, with a working dad and stay-at-home mom is fast disappearing. There is no longer any such thing as a Typical Family, but rather, a whole grab bag of family arrangements. Families are now more ethnically, racially, religiously and stylistically diverse than a decade ago. Postmodernists argue that the increase in diversity of family household structures reflects that we now live in a tolerant society. The family unit is thriving and continues to play a central role in shaping the health and wellbeing of family members. In A Family Just Like Mine, Gemma, an inquisitive, adopted child, travels the world looking for a family like her own. Her journey begins in London, from there she meets giants in Bolivia, rides an elephant in India, slides down dunes in Egypt and skis in Switzerland. Children will love jumping, high-fiving and stomping along with Gemma on her amazing adventure.

Songs of the Innocent is a collection of 35 poems that will take you into the mind of the poet. It is Poems for the heart and soul and will bring you inner peace.

The book reveals a deep connection between Geometry, God's Love and the Self by focusing on the Geometry of Creation and patterns behind shapes, events and feelings. A selfward journey is signposted by the topics such as Numbers, Golden Proportion, Fractals, Spirals and Music. With its artistic fusion of written and the full colour visual elements the book informs, entertains and inspires. The foreword is written by Egyptian architects Dr Ibrahim F. Karim MEMENTO 13 will appeal to a wide audience because it bridges the gap between writings on self-discovery intended for the academic and those designated for the layperson. It is meant to equally intrigue philosophers, scientists, architects, artists, as well as general readers who want to understand more about the fascinating properties of geometry and numbers and their relationship to the Creation, life, art and the self. The book is structured through 13 chapters. Author intertwines disciplines, cultures, ages, topics of visible and invisible, physical and metaphysical, Earth and Sky, into a unique tapestry of scientific and spiritual knowledge. Reinforced by a distinctive visual beauty, with 360 captioned illustrations, produced in full colour Memento 13 is an extraordinary book on geometric paths that Creator's Love and Consciousness travel through, leading us to His Essence in our own being. The book is an authentic contribution to the topic of sacred geometry and spiritual growth. Author explores the bigger picture of life in which everything is interconnected in a perfect (geometrical) order, wherein individual behaviour unmistakably impacts on others and the whole. She highlights that recognising the Oneness of Creation is the key to comprehending the truth of life and the self. While exploring mathematical dimension of the self through the topics such as Numbers, Golden Proportion, Fractals, Spirals and Music, Memento 13 blends science and spirituality into one wisdom.

This is the third collection of my poems. It also consist of 50 poems that I am sure you will enjoy.

Seven million Americans suffer from chronic or slow-healing wounds:this number includes people with diabetes, dementia, paralysis, spinal cord injury, multiple sclerosis, and poor circulation, as well as the elderly and those with reduced mobility. Healing Wounds, Healthy Skin provides patients and caregivers with everything they need to know on the subject, including: Why chronic wounds develop and who is at risk of developing them What "normal healing" is What the different types of wounds are, including those associated with chronic disease How to find appropriate care and get a correct diagnosis What role exercise and nutrition play in treatment and prevention What treatment options are available, from surgery to alternative therapies Also covered are the patients' psychological and emotional experiences, myths about wounds and wound healing, steps to take in an emergency, and a wound patient's bill of rights. With up-to-date information, insightful patient case histories, and a wealth of essential resources, this is the book that chronic wound patients and their caregivers can turn to with confidence.

This book is for the bare minimalist who wants maximum health benefits. The KISS principle for your well-being. Dr. Pearson outlines how to care for the muscular system quickly, the ligamentous structures, get the fundamental nutritional requirements, with a focus on the easiest way to care for the cardiovascular system. Flexibility is the key to life. While Einstein reminds us that nothing happens until something moves, Dr. Pearson reminds us that poor aging is the only thing that happens when nothing moves! If you feel confused and sense more and more you're not living up to your potential, take heart and know that the body is responsive to doing the right things, in particular doing the right things every single day. This manual, filled with excellent illustrations, will show you to easily stretch your body in less than 4 minutes a day while standing up and wearing street clothes. (Taking all the excuses away is essential!) In the additional 4 minutes a day, you will also learn how to use a roller not to stretch the muscles, but rather to lengthen the ligaments of the spine that are commonly the reason we end up hunched over, and worried about falling all the time. Dr. Kelli hopes you can live well up to the moment of your last breath, and not follow the slow downward spiral that so many people experience. Eight minutes to Ageless is your solution.

Are you ready for a change? Spend a month with Marilu! "Health is not just about weight or appearance, but rather a much bigger picture. I really believe that you can't be a healthy person unless everything is working together. Your body, your mind, your living space. Live in my world for 30 days and I promise you will feel better." -- Marilu
