The Willys F4-134 Hurricane was an inline-4 piston engine and powered the famous Jeep CJ in the CJ-3B, CJ-5, and CJ-6 models. It was also used in the Willys 473 and 475 pickups, wagons, and sedan deliveries. It replaced the Willys Go Devil engine that was used in the MB Jeep and other early Jeep-based models like the Jeepster. This engine was also built by Mitsubishi for their license-built ...

The Story of a Legend & Pat Foster's award-winning The Story of Jeep is back - bigger, more colorful, and more complete than ever. With updates on models from 2000 through 2005, Foster's new tribute to "the world's greatest fighting machine" is an essential part of any Jeep lover's library. In this history-packed, full-color second edition, the country's preeminent Jeep writer and historian details Jeep's roller-coaster history, from the early war-time prototypes, to the Kaiser and AMC eras, to the big buyout by Chrysler. With the help of more than 400 photos, Foster expertly tells the tale of how Jeep has evolved from a military workhorse, to 4x4 pioneer, to popular family hauler, all the while retaining its place as a great American icon.

This book offers a comprehensive look at an industry that plays a growing role in motor vehicle production in the United States.

The definitive, fully illustrated celebration of an auto manufacturer that paved its own way by going off-road is now updated to celebrate Jeep ' s 80th anniversary. Few American vehicles, or vehicles made anywhere else in the world for that matter, are as universally iconic as the Jeep. From olive drab WWII military relics to the beloved Wrangler with its rear-mounted spare tire, open-air design, and telltale roll cage, the Jeep is a true classic. In Jeep: Eight Decades from Willys to Wrangler, automotive writer Patrick R. Foster chronicles Jeep vehicle design and production from the beginning of World War II to present. Beginning with the Jeep as a crucial component of the American war fleet, Foster expertly recounts the corporate shifts, financial struggles and successes, close calls, and, above all, the enduring machines that have carried Jeep from the early 1940s to its triumphant role as a modern-day embodiment of American perseverance. More than 200 color and black-and-white historical photos and period advertisements complement his expertly written narrative of Jeep's entire history, now updated to include five years of new model editions and prototypes, its return to the pickup market, and recent stunning marketplace successes. The resulting book reminds us that sometimes the road less traveled was just waiting for the right truck.

Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Helen and Frank Schreider were true adventurers. Their dream was to drive the length of the Americas, from the town of Circle, Alaska (just outside the Arctic Circle), to the world ' s southernmost town, Ushuaia, in Tierra del Fuego. Dinah, their German shepherd, went with them. They are the first people in history to have made this trip. They came back with a whale of a story. The seagoing and mountain-climbing abilities of their amphibious jeep, La Tortuga, were put to a rugged test during the eighteen thrill-packed months the Schreiders were under way. They didn ' t just drive from Circle to Ushuaia—much of the way there are no roads. Many of the rivers that slice through the jungle are unbridged; the jungle itself often rears up in an impenetrable wall, and the natives just shake their heads and say, “ Turn back. ” Undaunted, the Schreiders hacked their way with machetes through the steaming jungles of southern Mexico, were forced to put out through the monstrous surf into the far from pacific Pacific, island-hopped across the reef-ribbed Caribbean, rode out a hurricane at sea, and crawled to almost sixteen thousand feet in the Peruvian Andes. They are the first to have reached South America in a wheeled vehicle under its own power. La Tortuga served them well and came away with her share of honors: she ' s the first “ ship ” ever to have been weighed in on dry land for passage through the Panama Canal and to have driven up to the port captain ' s door to pick up her pilot. 20,000 MILES SOUTH is a book filled with the happy glow of discovery, the ease, charm, and determination of its young authors, and the

fascinations and romance of faraway places.

From Willys and Overland Jeeps of World War II, to the CJ models of '70s and early '80s, to the slightly more civilized Wrangler, the Jeep has become an American icon. Jeep has maintained its popularity by updating and modernizing the traditional two-door, removable-top Jeep without watering down its off-road capability. Jeep owners love to personalize their vehicles and modify them for better performance on and off road. In *High-Performance Jeep Wrangler TJ Builder's Guide*, author Christian Lee explains how to upgrade your Wrangler's suspension, axles, differentials, engine, transfer case, wheels and tires, skid plates, and more, using aftermarket and salvage-yard upgrades. This book includes over 300 full-color images and drawings to show beginners and experienced Jeepers how to do things right. Lee even has special sections for basic driving and recovery technique, and a few built-up Jeeps to give you ideas for your own Wrangler.
