In fact, the DX7 has more programmability than any synthesizers Yamaha has ever before offered to the public, providing greater control over the sound than large or modular systems. The DX7 keyboard is fully polyphonic with 16-note simultaneous capability, so the sustain of previous notes will not be cut short when you're playing with all 10 fingers.

The DX7 manual is easy to find too. Dexed was originally intended to help DX7 owners to programme their synth. It has a sound engine that's capable of a very decent emulation of a real DX7, if that's what you're into, but it can also do anything else that can be done with any an FM synth of the same capabilities. You can download Dexed here.
